ICD-10 Competency Assessment for Coders: ICD-10-CM And ICD-10-PCS

by Lolita M. Jones RHIA CCS

ICD-10-CM Coding Assessments - My Coding Coach With just six months until the implementation of ICD-10-CM and ICD-10-PCS, now is the time to evaluate and assess the ICD-10 competency of your coding staff. The ICD-10 CM and ICD-10-PCS Coding Assessments are designed to test the coder's competency in assigning ICD-10-CM and ICD-10-PCS codes to various types of diagnoses and procedures. The assessments are available in both online and offline formats, and provide a comprehensive way to identify areas that need improvement.

ICD-10-CM And ICD-10-PCS implementation date is October 1, 2015. The transition to ICD-10-CM and ICD-10-PCS (ICD-10) represents much more than just a change in coding conventions, guidelines, and coding system. It is a diagnostic coding system implemented by the World Health Organization (WHO) that will affect the way healthcare organizations record, track, and report patient diagnoses and procedures.

The ICD-10 CM and ICD-10-PCS Coding Assessments are designed to assess the coder's competency in assigning ICD-10-CM and ICD-10-PCS codes to various types of diagnoses and procedures. The assessments are available in both online and offline formats, and provide a comprehensive way to identify areas that need improvement.

Implementation plan development and impact assessment (first step) is crucial for ensuring your coding staff is prepared for the transition to ICD-10-CM and ICD-10-PCS. These assessments should include the following core areas of competency:
